FIW Trade Talks is a series of events organized by the Research Centre International Economics (FIW). International economic researchers or high-level policy makers are interviewed on current topics in international economics and economic policy.

Daniel Gros

Daniel Gros is a Member of the Board and Distinguished Fellow at the Centre for European Policy Studies (CEPS). He joined CEPS in 1986 and has been the Director of CEPS from 2000 to 2020.

Over the last decades, he has been a member of high-level advisory bodies to the French and Belgian governments and has provided advice to numerous central banks and governments, including Greece, the UK, and the US, at the highest political level.

Daniel is currently also an adviser to the European Parliament and was a member of the Advisory Scientific Council (ASC) of the European Systemic Risk Board (ESRB) until June 2020. He held a Fulbright fellowship and was a visiting professor at the University of California at Berkeley in 2020.

Daniel holds a Ph.D. in economics from the University of Chicago. He has published extensively on international economic affairs, including on issues related to monetary and fiscal policy, exchange rates, banking. He is the author of several books and editor of *Economie Internationale* and *International Finance*. He has taught at several leading European Universities and contributes a globally syndicated column on European economic issues to Project Syndicate.

Harald Oberhofer

Harald Oberhofer is a Senior Economist at WIFO, the Austrian Institute of Economic Research. He is Professor of Economics at the Vienna University of Economics and Business. His research interests include International Economics, empirical Industrial Organisation and Applied Econometrics. Harald Oberhofer studied at the University of Innsbruck and holds a doctorate in Economics and Social Sciences from the University of Innsbruck.

Harald Oberhofer regularly serves as a consultant to international organisations such as the OECD and the World Bank, where he analyses the impact of institutional regulations on firm performance, also over the business cycle.
